Rain Date: Sunday, July 18, 2010

WHERE: *SEASIDE HEIGHTS MUNICIPAL DOCK
and BALL PARK – RT. 35, Seaside Heights*

About Us and our Event:

Shore Dreams for Kids is a fully exempt non-profit organization who throughout the year set out to raise money to hold an annual event for approximately 600-700 children and their families consisting of athletes from the Special Olympics to children of Make A Wish, Oceans of Love Support Group for Children with Cancer and mentally and physically challenged children as well as special needs children and their families throughout the area to a day at the shore.

Our annual event offers these children and their families a day of entertainment which includes a "carnival atmosphere" complete with games and small rides, an antique car display, food and drinks and live entertainment. The New Jersey Elks – South East District Special Children's Committee provides the games and an overwhelming supply of prizes for all to enjoy. Team kids from the Toms River school district help man the carnival and act as escorts for the Special Needs Kids and as general helpers. But most importantly and the highlight of the whole event are the Performance Powerboat rides in the Barnegat Bay, NJ. The boat rides are conducted by local Powerboat owners, including but not limited to members of the New Jersey Performance Powerboat Club who volunteer their time & boats to share with those less fortunate. The event would cease to exist without the help of a wide variety of companies and individuals who donate their time, services and hearts to this one day event. The reward of seeing the smiles and children's eyes light up from all that is shared with them is truly immeasurable. So please feel free to join us.

How We Came to Be:

Shore Dreams For Kids is a non-profit corporation who's concept was based on a "DAY ON THE BAY", by the Day on the Bay Foundation Inc. established in 1990, who is no longer in operation.

"DAY ON THE BAY" was an annual event held once a year to provide special athletes from the Special Olympics and their families a day of entertainment which included food, drinks, music, and gifts for everyone with race boat displays.

The Day on the Bay Foundation Inc. successfully produced this event for 10 years and made it what it was up until its last year in 2000. With the full approval of the Day on the Bay Foundation, members from NJPPC banded together and originated "Shore Dreams for Kids". This newly formed organization was established to pick up where the Day on the Bay Foundation had left off with the intent on expanding the event to not only include athletes from the Special Olympics but to mentally and physically challenged children as well as special needs children and their families throughout the area.

Shore Dreams for Kids is made up of volunteers from all over New Jersey and surrounding areas that share a love for power boating and sharing something special with others who are less fortunate.

We are committed to bringing community awareness to those children who love the open water who may never be able to experience the thrill of power boating.

The men and women who help make this annual event possible are a truly unique group of people who love the water, life and their cause.

It will touch your heart when you see the joy in the children's eyes after riding in a Performance Powerboat. The children show us the real reason to be involved.
